

KARKINOS X/XX CARTON LOADER

This is an equipment belonging to the latest generation of LHD products. Very simple and operational as for both its mechanical arrangement and its on-board plant design, the KARKINOS is the best solution for handling plastic boxes or cartons in simple or in double depth.

The main feature of the KARKINOS lies in its speed and in the reliability of its movements. It requires poor maintenance and it's easy to operate. Unlike the ARACHNE series, with no mobile dragging "fingers" it can handle the load in a very simple way.

SINGLE
DEPTH

DOUBLE
DEPTH

VERSION	Q LOAD (KG)	L LENGTH (MM)	MS MAXIMUM STROKE (MM)	V MAXIMUM SPEED (M/MIN)	A MAXIMUM ACCELERATION (M/S ²)
KARKINOS X	100	600	1300	45	1
KARKINOS XX		TO 1200	2200		

The KARKINOS is the perfect solution for simple pick-up warehouses.
